 Permanent Secretary
 Prime Minister's Office

Attn: Ms S. Valere

Dear Sir,

Subject: Forensic DNA and paternity testing laboratory

We refer to the **meeting held on Monday 19 October at the premises of the Prime Minister's Office regarding the setting up of a Forensic DNA and Paternity testing laboratory in Mauritius.**

We wish to inform you that Prof Doutremepuich has provided us with a detailed business plan to

the local police force but also from the region on latest techniques in forensic DNA sampling, analysis and crime investigations. Such collaborations are already being done by the LHML with the gendarmerie francaise in France and other overseas departments including La Reunion. The laboratory will also extend its services to the countries in the region which again is in line with government's vision in promoting outward investment by local companies towards Africa.

Prof Doutremepuich is in advanced discussions with the University of Mauritius for the recruitment of fresh graduates in molecular biology. A training programme (theory and practical) of around 4-6 months will be carried out in Bordeaux under the supervision of the directors. The trained personnel will be sent back to Mauritius to work in the lab. The objective is to maintain the same quality of personnel as the lab in Bordeaux.

Subject: Forensic DNA and paternity testing laboratory

We refer to the **meeting held on Monday 19 October at the premises of the Prime Minister's Office regarding the setting up of a Forensic DNA and Paternity testing laboratory in Mauritius.**

The project is based on a similar laboratory, Laboratoire d'Hematologie Medico-Legale (LHML), which Professor Doutremepuich owns and runs in Bordeaux, France. The laboratory is accredited by the COFRAC (Comite Francais d'Accreditation) CEI ISO 17025 since 2003. The lab was a pioneer in such quality standards implementation which is a testament to the expertise and high reliability of results for such activities.

The LHML forms part of a network of excellence in DNA forensic laboratories in Europe, Euroforgen and ISFG (International Science Forensics Genetics). It organizes seminars and conferences regularly on different aspects of internal security, the lab is also planning to hold such events in Mauritius as well. Hence, worldwide experts will be coming to Mauritius for such events.

The project will also further enhance the reputation of Mauritius as an education hub. The laboratory will be looking to work in close collaboration with the government for the training of

The implementation of such a laboratory in Mauritius will be in line with the Government vision of encouraging research and innovation centres in the country and this will help to improve the ranking of Mauritius in the competitiveness and Innovation indices.

We thank you for your kind collaboration and remain at your disposal for further information that you may require.

Yours Sincerely,

Harvesh Seegoolam

This updated Business Plan took duly into consideration the conclusions reached, and recommendations made, during the meeting held in the Government Centre, under the Chairmanship of Mr O.K. Dabidin on Tuesday 27 October 2015.

we are writing to you on behalf of the Chairman of the Board of Investment in connection with the Private DNA Laboratory project (hereinafter, "the Project").

By letter dated 14 October 2014, your office has instructed the Board of Investment that it had no objection to this Project.

Almost two years later, and after long and costly diligences carried out by Pr. Christian DOUTREMEPUICH for the setting up of this Project, your office finally informed that "the updated business plan submitted in October 2015 (...) has been examined anew and in view of the important implications thereof, the project has not been approved." (Emphasis added) (Letter dated 14 April 2016).

Given the importance of this Project for our Client as well as the amounts invested for its development, this situation needs to be clarified with your kind assistance.

On the one hand, your decision dated 14 April 2016 seems to be grounded on a Business Plan which is dated October 2015. However, our Client has respectfully submitted to your office's scrutiny, through the Board of Investment (Mr. Hanzy Mundil), an "updated" Business Plan dated 4 November 2015.

Article 9

Disputes between an Investor and a Contracting Party

1. Any dispute arising directly from an investment between one Contracting Party and an investor of the other Contracting Party should be settled amicably between the two parties to the dispute.

2. If the dispute has not been settled within three months from the date on which it was raised in writing, the dispute may, at the choice of the investor, be submitted:

(a) to the competent courts of the Contracting Party in whose territory the investment is made; or

(b) to arbitration by the International Centre for Settlement of Investment Disputes (ICSID), established pursuant to the Convention on the Settlement of Investment Disputes between States and Nationals of other States, opened for signature at Washington on 18 March 1965 (hereinafter referred to as the "Centre"), if the Centre is available; or

(c) to any ad hoc arbitration tribunal which unless otherwise agreed on by the parties to the dispute, is to be established under the Arbitration Rules of the United Nations Commission on International Trade Law (UNCITRAL).

3. An investor who has submitted the dispute to a national court may nevertheless have recourse to one of the arbitral tribunals mentioned in paragraphs 2(b) or 2(c) of this Article if, before a judgment has been delivered on the subject matter by a national court, the investor declares not to pursue the case any longer through national proceedings and

withdraws the case.

4. Any arbitration under this Article shall, at the request of either party to the dispute, be held in a state that is a party to the Convention on the Recognition and Enforcement of Foreign Arbitral Awards (New York Convention), opened for signature at New York on 10 June 1958. Claims submitted to arbitration under this Article shall be considered to arise out of a commercial relationship or transaction for purposes of Article 1 of the New York Convention.

5. Each Contracting Party hereby gives its unconditional consent to the submission of a dispute between it and an investor of the other Contracting Party to arbitration in accordance with this Article.

6. Neither of the Contracting Parties, which is a party to a dispute, can raise an objection, at any phase of the arbitration procedure or of the execution of an arbitral award, on account of the fact that the investor, which is the other party to the dispute, has received an indemnification covering a part or the whole of its losses by virtue of an insurance.

7. The award shall be final and binding on the parties to the dispute and shall be executed in accordance with national law of the Contracting Party in whose territory the award is relied upon, by the competent authorities of the Contracting Party by the date indicated in the award.
